Dear Colleague

**Immunisation Programmes Activity Data Set (KC50) – Activity Return
1st April – 31st March**

I am writing to request the completion of the above collection. The data returned should be based at Primary Care Trusts, NHS Foundation Trusts, NHS Trusts and Social Enterprises.

Background to the 2011-12 Collection

The information obtained from the KC50 collection monitors progress of the immunisation programme. It is also used in negotiations and resource allocation to the NHS. This information is published annually in a statistical bulletin, the latest of which can be found at the following web address:

<http://www.ic.nhs.uk/statistics-and-data-collections/health-and-lifestyles/immunisation>

There were a number of data quality issues with the 2010-11 collection and we have been working with the Department of Health (DH) and system suppliers to address these. The KC50 guidance has been revised and a Frequently Asked Questions section added (see link to guidance below). System suppliers have confirmed that the necessary configuration has been carried out to produce the required output.

The revised guidance for this collection can be found at the following address:

<http://www.ic.nhs.uk/services/omnibus-survey/using-the-service/data-collections/kc50>

Accessing the KC50 Collection

The return is made via the Omnibus web-based collection tool. Login links to access the system are sent to contacts in early April each year. The link will take you directly to the login screen with your organisation details.

Full guidance on how to use Omnibus Survey to complete data collections is available from the following link:
