

Improving Access to Psychological Therapies (IAPT)

Provider Extract Specification

Health & Social Care
Information Centre

Purpose

This document describes the content and format of the two types of extracts produced during processing for providers submitting IAPT data.

Document version history

Version	Date Issued	Brief Summary of Change	Owner's Name
1.0	14/05/2012	First release	Nick Bridges
1.1	07/06/2012	Amended CSV Column Header Names for the following items: > ELECTORAL_WARD_OF_USUAL_ADDRESS > COUNT_GUIDED_SEL_HELP_SESSIONS > COUNT_BEHAVIOURAL_ACTIVATION_SESSIONS > COUNT_STRUCTURED_EXERCISE_SESSIONS > COUNT_COLLABRATIVE_CARE_SESSIONS > COUNT_EMPLOYMENT_SUPPORT_SESSIONS	Nick Bridges
1.2	07/06/2012	> SCOPHOBIASCORE	Nick Bridges
1.3	31/05/2013	Rebranding and minor text changes following health service restructuring.	Aaron Leathley

Note: This document should be read in conjunction with the IAPT Dataset User Guide and Information Standards Notice (ISN) Amd 29/2011.

Improving Access to Psychological Therapies (IAPT)

Provider Extract Specification

Health & Social Care
Information Centre

How to use this document

This document describes the content and format of the extracts produced by the Bureau Service for IAPT providers.

Providers receive two types of extract: a pre-deadline (test) extract and a post-deadline (final) extract.

The pre-deadline extract is produced for every file submitted by the provider that passes validation and can help providers to review and improve their submissions, before the submission window closes.

A post-deadline extract is only produced for the 'last good' Primary and Refresh files submitted. The final extract is an output of post-deadline processing, following the closure of the submission window. Providers can improve a primary submission by making a refresh submission for the same reporting period when the next submission window opens. The refresh submission is the last opportunity to revise or improve data for a particular reporting period.

Extracts are provided as a set of 5 CSV (comma separated) files - Header CSV, Patients CSV, Disabilities CSV, Referrals CSV and Appointments CSV.

Table Details

CSV File Name - The name of the csv file within which the corresponding data items are included

Access Name - The unique name of the data item within the IAPT Intermediate Database (IDB)

CSV Column Header name - The name of the data item within the csv structure

Data Item Name - The unique title or name of the data item

Format - The format and length of the data item

Submitted/Derived - This is to identify whether the information was submitted as part of the IAPT submission or whether it is derived during processing.

Improving Access to Psychological Therapies (IAPT) Provider Extract Specification Version 1.3

Purpose of this document

This document describes the content and format of the two types of provider extract produced following the submission of IAPT data:

- > A pre-deadline (test) extract is produced for every file that passes submission validation during pre-deadline processing (whilst the submission window is open).
- > A post-deadline (final) extract is produced following the completion of post-deadline processing (following the closure of the submission window).

Extracts are provided as a set of 5 CSV (comma separated) files - Header CSV, Patients CSV, Disabilities CSV, Referrals CSV and Appointments CSV.

The CSV files link together using LPTID and IAPT record number.

On submission validation rules are described separately.

CSV File Name	Pre-deadline (test) extract	Post-deadline (final) extract	Access Name (IDB)	CSV Column Header Name	Data Item Name	Format	Submitted / Derived
HEADER CSV							
HEADER	Y	Y		FILE_TYPE	Primary or Refresh		Derived
HEADER	N	Y		END_PROCESSING_DATE	Final process completion Date and Time		Derived
HEADER	Y	Y		TOTAL_RECORDS	Total Record Count		Derived
HEADER	Y	Y		BSP_UNIQUE_ID	File ID		Derived
HEADER	Y	Y		UPLOAD_DATE	Date and Time file uploaded		Derived
HEADER	Y	Y		START_DATE	Reporting Period Start Date		Derived
HEADER	Y	Y		END_DATE	Reporting Period End Date		Derived
HEADER	Y	Y		PROVIDER_ORG_CODE	Organisation Code (Code of Provider)		Derived

CSV File Name	Pre-deadline (test) extract	Post-deadline (final) extract	Access Name	CSV Column Header Name	Data Item Name	Format	Submitted / Derived
PATIENTS CSV							
General Rule: Each LPTID will only have an entry in the Patients CSV if there is an entry in the Referrals CSV that meets the data inclusion rules for that LPTID. Then all the data items for that LPTID in the Patients CSV should be included.							
PATIENTS	Y	Y		START_REPORTING_PERIOD	Reporting Period Start Date	date	Derived
PATIENTS	Y	Y		END_REPORTING_PERIOD	Reporting Period End Date	date	Derived
PATIENTS	N	Y		IAPT_RECORD_NUMBER	IAPT Record Number	an16	Derived
PATIENTS	Y	Y	NHSNO	NHSNO	NHS Number	n10	Submitted
PATIENTS	Y	Y	NHSNOStatus	NHSNOSTATUS	NHS Number Status Indicator Code	an2	Submitted
PATIENTS	Y	Y	LPTID	LPTID	Local Patient Identifier	an20	Submitted
PATIENTS	Y	Y	OrgCodeProvider	ORGCODEPROVIDER	Organisation Code (Code of Provider)	an5	Submitted
PATIENTS	Y	Y	DOB	DOB	Person Birth Date	Date	Submitted
PATIENTS	Y	Y	Gender	GENDER	Person Gender Current	an1	Submitted
